

## morePheus<sup>3</sup> mobile EXP – for presentations

The morePheus<sup>3</sup> mobile EXP with its side length of 30cm is probably the smallest and most mobile cubic mini-3-D-projection system on the market. Fascinate your customers at ad-hoc presentations with this elegant projection system.

If the presentation is supposed to make the difference, there is no way around the 3-D stereo projection solutions from more3D. Easy orientation at a high light performance combined with invincible travel readiness brings stereoscopic 3-D into every office and to every customer. You can even abandon the screen, due to the built in INFITEC-filter technology, so that the system is ready to use in only 5 minutes.

Thanks to the energetic design, the minimalist size and easy handling the morePheus<sup>3</sup> mobile EXP is an excellent travel companion, as it has adequate room in the accompanying trolley along with its accessories. With two times 3000 Ansi Lumen projectors and special wide-angle lenses, the morePheus<sup>3</sup> mobile EXP produces a pin sharp image with a width of up to 3m from a short range.

The sturdy trolley made of aluminum with a twofold lockable telescope rod contains the morePheus<sup>3</sup> mobile EXP with two projectors und filters including 5 pairs of INFITEC glasses.

In combination with the more3D software moreStereo DX/GL and/or moreMedia HD this system is the perfect solution for a convincing mobile presentation at your clients' location and ensures real fascination among the viewers.

If you would like further information about the morePheus<sup>3</sup> mobile EXP, the more3D team stands at your disposal. You can contact us via email under [info@more3d.com](mailto:info@more3d.com) or via telephone under +49 (0)221 677 87 97 0.

With over 10 years of experience, more3D provides superior stereoscopic software and solutions to clients in industry, trade and media and is initiator of the "invaZion 3-D Short Film Challenge".

Use the morePheus<sup>3</sup> mobile EXP for convincing client presentations
